

Practical and economical, the teryair X2 has been the workhorse of the industry. It's easy to maintain and lightweight to use. The twist throttle mechanism is comfortable and fatigue free for operators.

Features

- Twist type throttle, control and ease of use
- Hardened alloy steel Pistons, economical
- Simple piston mechanism, easy to maintain
- Light weight, less operator fatigue and easy to manoeuvre.

Applications

- Removal of heavy and stubborn layers of rust
- Removal of hard chemical coatings.

X2

Technical data

IMPA Code	590382
Teryair Model No	X2
Number of Pistons	1
Piston Dia mm	30
Air Inlet PT	9.5
Net Weight kgs	2.6

Additional data

Teryair Model No	X2
Piston Length mm	72
Piston Stroke mm	21.3
Maximum operating pressure kg/cm ² (psi)	6
Air Consumption cfm (m ³ /min)	7 (0.20)

Package dimensions and weights

Teryair Model No	Weight kgs	Box Dimensions cms
X2	3.5	52 x 14 x 6
