

Vibration reduced tools transfer negligible vibration and offer greater comfort to the operator. Ideal for removal of unwanted layers, these scalers are able to use different needle sizes for ideal results.

**Features**

- Low vibration - easy on operators.
- Hardened steel cylinder - durable.
- Pistol grip handle.
- Choice of needle sizes
- High power to weight ratio.
- Lightweight - easy to use and manoeuvre.
- Simple to maintain - few moving parts.

**Applications**

- Cleaning of weld splatter and flux
- Descaling
- Reaching hard to reach areas
- Paint removal
- Corrosion removal, prior to re-coating or painting
- General surface preparation

These tools are great for use in general industry, shipyards, maintenance of sea going vessels, offshore platforms etc.
